SUMMARY

"Front End Developer with 2+ years of experience building responsive static and dynamic websites. Skilled in delivering user-friendly interfaces across 30+ projects with clean, maintainable code."

WORK EXPERIENCE

Lead Front End Developer, *Technoboost services*   Jan 2025 – present
                                                                                                        banglore

- Promoted to Lead Front End Developer after demonstrating consistent performance and initiative.
- Leading a team of 3 front-end developers, mentoring them through code reviews and project planning.
- Managing and overseeing multiple projects, ensuring adherence to timelines, quality standards, and client requirements.
- Coordinating with cross-functional teams to deliver seamless and responsive user interfaces.
- Introducing best practices for code optimization and performance improvement across projects.

Front End Developer, *Technoboost services*   Feb 2023 – Jan 2025
                                                                                                        banglore

- Developed 25+ static websites and 6+ dynamic web applications using HTML, CSS, JavaScript, React, Bootstrap, and Tailwind CSS.
- Collaborated with designers and back-end developers on 10+ full-cycle projects, ensuring pixel-perfect, responsive design.
- Integrated interactive features and animations using JavaScript and jQuery to enhance user engagement.
- Reduced website load times by 10–15% via code optimization and resource management.
- Maintained version control and contributed to collaborative development via GitHub.
- Actively participated in code reviews and knowledge-sharing sessions within the team.
